Capabilities
- Pipe and tube bending
- Custom welding and fabrication
- Hose testing and certification
- Pressure testing to 10,000 psi
- Technical sales assistance
- Kitting
- Highly trained staff, 24/7 service
- Large in-house inventory

Services
- Customized assemblies/packaging
- Inventory management
- On-site safety/application surveys
- Tool and equipment rentals
- Customized training seminars
- Prototyping
- JIT delivery support
- Same-day hose fabrication
- Walk-in front counter service

In addition to fabrication facilities and an extensive warehouse area, McGill Hose & Coupling’s 30,000-square-foot building includes a store with a counter staff that is trained and ready to engineer on-the-spot solutions for a wide variety of customer applications.

Unmatched service, along with fabrication and testing expertise, makes McGill so much more than simply a distributor.

Founded as H.A. McGill Company in 1962 by Harry A. McGill, our company’s reputation as a specialized, problem-solving fabricator of metal and PTFE assemblies was quickly established. From the start, a customer-driven philosophy demanded that we provide the best possible product for each and every application. Then, as now, it was apparent that customers were depending on the quality of our products, as well as our expertise. After all, fluid handling products must protect the safety of the people who use them and the environments in which they are used.

In 1965, our company name was changed to McGill Hose & Coupling, Inc. to better define us in the marketplace. Additional product lines were added as more and more recognized manufacturers established professional relationships with us. Today, McGill Hose & Coupling, located in East Longmeadow, Massachusetts, specializes in the distribution and fabrication of the most comprehensive line of flexible hose, fittings and fluid handling components in the area. Looking to the future, we know that we must make adjustments to our business as our customers’ technologies change. We are committed to continuously raising the quality levels of our products and services and, in turn, ensuring the safety and satisfaction of our customers.

McGill Hose & Coupling distributes industrial fluid handling products from many highly regarded manufacturers, including, but not limited to:
- Goodyear
- OPW
- Dixon Valve & Coupling
- Weatherhead
- Hansen Coupling
- Everflex
- Eatlon Hydraulics
- Hose Master
- Saint Gobain
- Axiflex Hose
- Hansen Coupling
- Hannay Reels
- Titeflex
- Aflex Hose
- Morris Coupling
- Kanaflex

• Industrial hose
• Metal hose
• PTFE hose
• Quick couplings
• Hydraulic hose
• High-purity hose and fittings
• Pipe and bobe fittings
• Pneumatic conveying components
• Expansion joints
• Fluid handling products
  (including spill containment and overfill protection)
• Hose accessories
  (including blowguns, safety devices and foot valves)
• Plastic tubing and hose
• Industrial hose fittings
• Hose protection
• Miscellaneous related products
  (including safety products, hose storage systems, pipe clamps and lubrication equipment)

Quality fluid handling products... with the added value of McGill's expertise

McGill Hose & Coupling is committed to the process of continuous improvement through:
- Employee education and training
- Continuously monitoring our performance
We are also committed to supplying the safest products possible through:
- Training of hose assembly personnel to ensure the integrity of assemblies
- 100% testing of metal hoses
- Meeting or exceeding industry standards for fabrication of hose assemblies set by NAHAD (National Association of Hose & Coupling Distributors)
