

COILHOSE CANNON®

The Cannon Extreme High Volume Air Blow Gun uses the compressed air from your tow-behind compressor to clear heavy, stubborn debris. Blowing with the Cannon is faster than sweeping, and is safer than using a pipe and ball valve. The Cannon makes even big-job clean-ups quick and easy!

Cannon with Safety Nozzle

This specially engineered nozzle delivers a concentrated force to a **SMALLER** specific area efficiently.

Application: Anyone with an ample air supply (tow-behind compressor for mobile applications or large capacity compressor found in plants) and has a need to move heavy/stubborn debris. Geared for, but not limited to outdoor use.

Operation/performance: Air consumption equals 135 CFM at 100 PSI.

MODEL NUMBER	ITEM DESCRIPTION
9000-S	2" Extension Model
9000-24S	24" Extension Model
9000-48S	48" Extension Model

Recommended Accessories

Universallock Fitting

Universal Fitting

50' Jackhammer Hose

CAUTION: ALTHOUGH COILHOSE PNEUMATICS SAFETY BLOW GUNS MEET OSHA REQUIREMENTS, WE STRONGLY RECOMMEND USING OF APPROVED SAFETY GOGGLES & EXERCISING EXTREME CAUTION WHEN USING ANY BLOW GUN.

- Clears surfaces of dust and debris; cleans and dries heavy equipment quickly and safely
- Blows away large debris and rubble rapidly and efficiently
- Uses compressed air from tow-behind compressors, common on job sites

MATERIAL & SPECIFICATIONS

BODY: Die cast aluminum, machined brass, and stainless steel

IN PORT: 3/4" NPT female thread

TIP: Wear-points constructed of heat-treated and zinc-plated steel

RECOMMENDED INLET PRESSURE: At least 90 PSI and a hose I.D. of at least 1/2"

Extreme Ease Trigger™

Specialized power-assisted trigger requires minimal force to actuate.
