At McGill Hose & Coupling we are pleased that we can offer custom tube and pipe bending to offer another dimension of fluid handling solutions.

We would be happy to discuss our specific capabilities if you have an application we could assist with.

We stock and can source and work with carbon steel, stainless steel, aluminum, copper, as well some of the more exotic specialty metals like Inconel and Hastelloy.

Our Locations:

41 Benton Dr,
East Longmeadow, MA
413-525-3977

35 Industrial Pkwy Unit F,
Woburn, MA
781-933-3300

920 Broadway,
East Providence, RI
401-438-0639

DK-LOK® Two Ferrule Tube Fittings

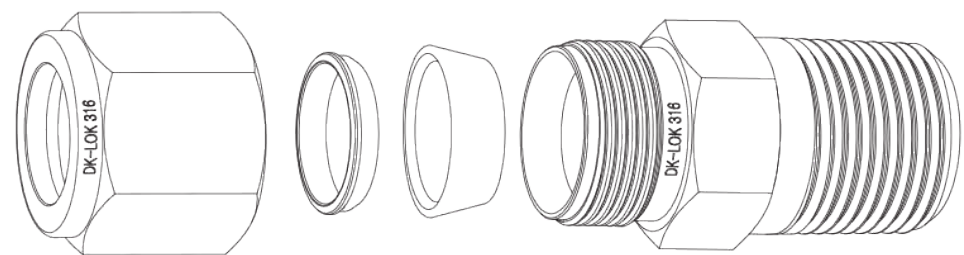

DK-LOK Two Ferrule Tube Fittings incorporate the most ROBUST, FULL MASS back ferrule technology on the market. This back ferrule technology along with outstanding dimensional control allows DK-LOK to perform leak-free against ASTM F-1387 as a pure assembly and when intermixed with Swagelok.

About DK-LOK:

DK-Lok Tube Fitting is designed using industrial codes and swaging action and sealing integrity. DK-Lok provides excellent leak-free sealing on high pressure gas, vacuum, impulse, thermal shock, heavy vibration, and many other stringent applications. DK-Lok brings you truly excellent quality, outstanding customer service, and availability.

About McGill Hose & Coupling:

McGill Hose & Coupling prides itself on supplying quality product solutions and services for your company. With over 100 years of combined experience in custom hose fabrication, large inventory of various hoses, high-volume production & partnerships with the best hose & coupling manufacturers, you'll feel confident putting your trust in us.
