For 40 years most of the major pharmaceutical & chemical manufacturing plants around the world have been using Aflex Hose products.

Performance requirements: Excellent chemical resistance, clean-fast fluid flow, flexibility & kink resistance & to high pressures/full vacuum.

- **BIOFLEX Ultra** - Best for Biopharm for clean, fast flow of high purity fluids.
- **PHARMALINE N&X** - Improved compatibility & cleanability over silicone rubber hoses.
- **CORROLINE+** - Best in rough use clean flow applications

Saint-Gobain specializes in the manufacturing of premium hose & tubing for Process Systems, Biopharm, & Medical industries

- **Tygon** - Precision-designed for peak performance & regulatory compliance, across specialized fluid transfer applications
- **Versilon** - Premium quality tubing, hoses, & fittings, fulfilling demanding certification, performance, & safety standards.

Dixon is a name synonymous with quality stainless fittings

- Full line of 304 and 316L stainless steel sanitary fittings, tubing, valves and pumps
- Clamp, weld, bevel seat, I-Line, European & other fittings in a variety of sizes from 1/2" to 12"
- Complete line of BioPharm fittings from sizes 1/2" to 6"

OPW is the expert in reducing fluid handling hazards with quick & dry disconnect fittings for any fluid handling need & suitable for an extensive range of hazardous liquid applications.

- **Kamvalok[®], Drylok[™] & Epsilon[®]** Dry Disconnects
- **Hiltap[™]** Couplings & Connectors for extreme pressure & temperature sealing applications
- **VISI-FLO[®]** Sight Flow Indicators

NewAge[®] Industries offers a broad line of tubing and hose products made from silicone, including platinum-cured silicone tubing & silicone hose to ensure the least possible extractables.

Their state-of-the-art, clean room is designed for manufacturing products particularly suited to medical & pharmaceutical applications. Also, their industrial grades offer exceptional performance at relatively lower costs.
