#### Accessories:

Expansion Joints  
Fluid Handling Components  
Hose Reels  
Hose Safety Equipment  
Overfill Protection Products  
Safety Products  
Sheet Rubber & Gaskets  
Spill Response Products  
Washdown Nozzles & Racks

#### Specialized Services:

Custom Welding  
Custom Fabricated Assemblies  
Customized Packaging  
Hose Assembly Management  
Hose Cleaning  
Hose Safety Training  
Inventory Management  
Site Safety Surveys  
Tube & Pipe Bending

## Industry Leading Fabrication Facility

In addition to fabrication facilities, each of McGill Hose & Coupling's three branches has a store with a counter staff that is trained and ready to fabricate on-the-spot solutions for a wide variety of customer applications.

**Unmatched service, along with fabrication and testing expertise, makes McGill so much more than simply a fabricator & distributor.**

East Longmeadow - HQ  
45 Industrial Drive  
East Longmeadow, MA  
413-525-3977

Eastern MA Branch  
35 Industrial Pkwy, Unit F  
Woburn, MA

# Quality Fluid Handling Products... with the added value of McGill's expertise!

McGill Hose & Coupling distributes air, liquid, and material conveyance products from many highly regarded manufacturers for a wide variety of critical applications including:

- Hydraulic Machinery
- Plastic Injection Molding
- Pharma/BioPharm Processing
- Paper & Pulp Processing
- Steam Power Generation
- Fuel Transfer & Delivery
- Aerospace Support
- Wastewater Discharge
- Autoclave Operation
- Chemical Transfer & Processing
- ...and many more!

**McGill Hose & Coupling serves many industries including:**

- Chemical Processing
- Food & Beverage
- Pharmaceutical
- Petrochemical
- Construction
  - OEM
- Power Generation
  - Plastics
- Transportation
  - Hi-Purity
  - Defense
- Bulk Transport
  - Marine

Types of hoses and assemblies fabricated and distributed by McGill Hose & Coupling

- Metal Hose
- PTFE Hose
- Hydraulic Hose
- Composite Hose
- Silicone Hose
- Plastic Tubing/Hose

## Services and Capabilities:

**Custom Hose Fabrication** - Customization is what we do best. We work directly with our customers to design hose assemblies to their exact need and specifications.

We also design component systems to work together, these can include piping, hose, fittings, adapters, as well as valving and other components to make connections and control how a system operates.

**Hose Testing & Certification** - As a founding member of the NAHAD Hose Safety Institute, we take hose testing and safety extremely seriously. We provide the following types of testing in-house: Hydrostatic, Helium Mass Spectrometer, Pneumatic Leak Testing, Burst Testing, Electrical/Conductivity Testing, as well as Re-Testing & Certification and In-Plant Hose/Coupling Safety Surveys.

**Custom ID Tagging & Tracking** - By tagging and tracking your hose assemblies, you reduce the likelihood of a potentially hazardous or costly hose failures and machine downtime.. McGill Hose offers the following methods of tracking your hose assemblies and couplings: Laser-Etching (on tag or ferrule), Dot-Peen Tags, Color Coding, Bundling, Hose Trakker Software, RFID Tags, and other methods.

**Tube & Pipe Bending** - McGill Hose & Coupling, Inc. is experienced in both simple and complex bends to offer another dimension of fluid handling solutions. Whether a single prototype or production bends, our commitment is to accuracy and quality. We offer custom tube and pipe bending, as well as forming, flaring, welding and plating in Steel, Stainless Steel, Copper and Aluminum. Some of the more exotic specialty metals like Inconel and Hastelloy can be sourced as well. Hydraulic Tube Assembly Duplication, Bending to Design or Schematic, and Solution-based Tube Bends are all solutions we provide.

## Certifications and Alliances:
