

Hello Friends,

I would like to take this opportunity to thank you for your partnership and the opportunity to work in this diverse marketplace with such amazing people. McGill Hose is lucky to serve a wide variety of industries and work with customers who understand value in products and suppliers that perform. Thank you to every customer that gives us a call, shoots a text or writes an email. We are here to bring you confidence in your supply chain and appreciate every opportunity no matter the size.

Often, we have customers visit and say, "Wow, I didn't know you could do that!" Therefore, I'd like to invite you to visit one of our facilities anytime; our doors are open. (Text me at 413-530-8009 if you'd like that arranged)

If you are unable to come for a tour, I'm excited to share the launch of the new WWW.MCGILLHOSE.COM. We hope the new 2020 layout and content provide a user-friendly environment to help you identify and learn more about the products and services that we are proud to offer. The markets we serve help us balance a large inventory selection, and our commitment to in-house capabilities allow us to help you at a moment's notice.

This website is a framework of categories designed to highlight problem solving, high quality products and services along with pertinent technical information. Our objective is to facilitate the sharing of ideas with one another and help your research towards making your workplace safer and more profitable. You will see "circles" throughout our new site that are active and some which are under construction. If there are any topics that interest you and are not fully functional yet, please call and we'll get you the information you need.

I want to say a special thank you to the McGill Hose Team for making this career a dream come true. I am very proud of the way we treat each other and the care you take in working with our customers and suppliers.

Gratefully,

Alex McGill
